The photovoltaic panels cover the tops of the two different locations: Santa Maria La Longa (UD) and Premariacco (UD). An investment that has resulted in reduction on two fronts: emission reduction and cost reduction. In fact, the critical period that Italy and the rest of the world are facing does not go unnoticed. The costs of energy and raw materials are constantly increasing and have strong impact on the entire world market. Nonetheless, Ambiance Italia, going against the trend, has made a big investment in various machineries to optimize production and an investment aimed at creating a showroom. The latter with the aim of inviting and welcoming its customers, and ensuring that they can touch the inimitable Made in Italy. It is essential for the Friulian company to establish a relationship with its customers that can be fulfilled in a lasting, continuous, loyal and trusting relationship.
